

Shanbally

[Verse 1]

I've been walking down this dusty road
With a heavy step and a heavy load
But the sun is shining through the trees
And I feel the spirit in the breeze

[Chorus]

Oh, the world is wide and the world is grand
With a helping heart and a helping hand
We can build a bridge across the sea
And be the best that we can be

[Verse 2]

There's a light that's burning in your eyes
Like a morning star in the eastern skies
Shan bally leads us on to a better day
Where the shadows all will fade away

Shan bally whispers in the morning light,
A place where footsteps are soft and right.
Fields remember every name I've known,
And in their hush, I hear my own.

Shan bally lingers in the amber light,
A hush of evenings into night.
Old roads remember who I used to be,
Their dust still carrying a trace of me.

[Chorus]

Oh, the world is wide and the world is grand
With a helping heart and a helping hand
We can build a bridge across the sea
And be the best that we can be.
